Art Unit: 1772

1. The following is an examiner's statement of reasons for allowance: as a matter of claim construction the examiner takes the "at least one pretreatment layer" in claim 1 as not being the layer that contains the printing composition (see page 2 of the specification). The limitations of a non-anodized aluminum alloy substrate in combination with the claimed pretreatment layer having dopant particles consisting of silica having a particle size of .02-5 microns in the claimed weight percent range, and the other limitations of claim 1, define over the cited prior art. Vermeersch et al. does not teach silica in the claimed size and weight percent range as noted by applicant.

Newly cited Shaw and Tashiro et al. teach silica in the image or printing composition layer, not in a pretreatment layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is

Art Unit: 1772

eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 22 January 2004 has been entered.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Watkins III whose telephone number is 571-272-1503. The examiner works an increased flex time schedule, but can normally be reached Monday through Friday, 11:30 A.M. through 8:00 P.M. Eastern Time. The examiner returns all calls within one business day unless an extended absence is noted on his voice mail greeting.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR of Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
